Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers like Comcast to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,
Mr. R See

Subject: Stop selling my internet to Cable companies

Dear Commissioner Wheeler,

The DARPA project that created the internet and all of the public college routers and wires that form the backbone of the internet were paid for with my tax dollars. Internet usage should be and was free. We only now pay for connecting to it. Comcast does not pay for anything beyond the building with their router. It's like a car dealer charging me to use the road to my house. All of the rest of the way to a website is paid for by someone else (me) just like highways and surface streets. They cannot charge me for something I already own. I depend on you to regulate the airwaves, phone lines and communication inside the US. We the people own it not the corporate interests. They are already making billions they are not suffering.

Last time I looked Time Warner and Comcast paid zero for any of the backbone they want to charge me for using. The only payment they make is to buy up some support. They stand to make billions off of a multi-tier internet. The citizens that paid for it only see higher bills for slower service.

Letting well-financed interests charge to use fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers like Comcast to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,
Mr. Andrew Richter

Thomas Jefferson and Ben Franklin are spinning in their graves. Don't destroy what is left of the last method of open and free communication and free flowing information as you have with the airwaves and print media. Protect net neutrality.

Sincerely,
Ms. Beverly Davis

Dear Commissioner Wheeler,

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,
Ms. ann smith

Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,
Ms. Akankha Perkins

Ms. Jenna LaReau

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests- CORPORATIONS- build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer.

The FCC MUST reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,
Mrs. Peggy Sapphire

Dear Commissioner Wheeler,

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,
Ms. Diane Taudvin

Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,
Mrs. Elizabeth Bishop

Mr. Mitchell Albala

Dear Commissioner Wheeler,

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,
Ms. Jane Rittenhouse

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,
Barbara Deur

DC 20036

Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

Please preserve net neutrality by preventing internet service providers from creating fast lanes for preferred customers. Having to pay for faster internet access will only help large corporations that can afford it, at the expense of small businesses.

Sincerely,
Dr. Erik Olson

Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,
Mr. Thomas Metke

Big corporations should NOT be in charge of our internet!!!!!!

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy. It is also vital to education, commerce, international cooperation, etc.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,
Ms. Willa O'Connor

Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

The Internet is the public square of our 21st century.

We use the Internet to inform ourselves about candidates, debate the issues, and organize with other advocates.

The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Allowing well-financed interests the ability to build Internet 'fast lanes' for the few, will harm all of us.

Giving corporate voices who can afford special access eliminates the ability for independent and non-profit voices to speak.

The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,
Kreg Kiggins

Dear Commissioner Wheeler,

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,
Mr. Dale Hillard

Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,
Renee Evanoff

Five or six major corporations own every broadcast news outlet in the USA. If you then control our access to the internet as well, we might as well move to North Korea where at least they don't pretend to be a democracy. Corporate propaganda is every bit as bad as nationalistic propaganda.

Sep 10, 2014

Petition Mailbox
DC 20036

Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

Allowing the large communications providers to control and potentially throttle the Internet is an act of discrimination against most of our citizens. We already have some of the slowest Internet speeds in the developed world. We allowed the Communications giants to pick and choose winners and losers on a profit basis only which has left us lagging behind. To give the large providers and their clients to control the system will lead to even larger divides in our country.

The infrastructure should be owned by the people, all of us. Then make the large companies put in competitive bids to provide services over the system we own. That insure competition which we do not have now. It would also hold them responsible to the people for the terms of their contracts, if they are not met they lose the franchise.

Keep the Internet open and spend our money and time improving it for all

Americans, not just the large campaign fund donors. I work in the Tech field and what I see coming is a disaster for most of us, and a bonanza for the Corpse.

We have to do better for we are quickly becoming a second tier nation and the throttle the Internet will only speed up our decline.

Sincerely,
Mr. Dallas Eggers Sr

Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,
Mr. Jim Gleckler

Dear Commissioner Wheeler,

As more people finally get royally pissed off about what is being done to them by the too rich, graft-ridden government, and too big to regulate corporations, there is another revolution on the horizon. Question is, will it be the FCC's cave in to BIG MONEY from those it is supposed to regulate be the the catalyst that leads to revolution? Your days of getting away with murder are numbered.
